The Stanthorpe Streetscape Plan

KEY ELEMENTS OF THE PLAN:

- 1 **Maryland Street South**
New public spaces, alfresco areas, pedestrian crossing, footpaths and laneway works
- 2 **Rogers Street Carpark + Frome Lane**
New shaded carpark, walkways and laneway public space
- 3 **High Street Gateway**
New crossing, footpaths and alfresco areas
- 4 **Southern Town Entry**
Avenue planting and footpaths
- 5 **Town Linkage Works**
New footpaths and shade trees
The Gallery Walk

Planning and streetscape works to hold together the walkable town centre

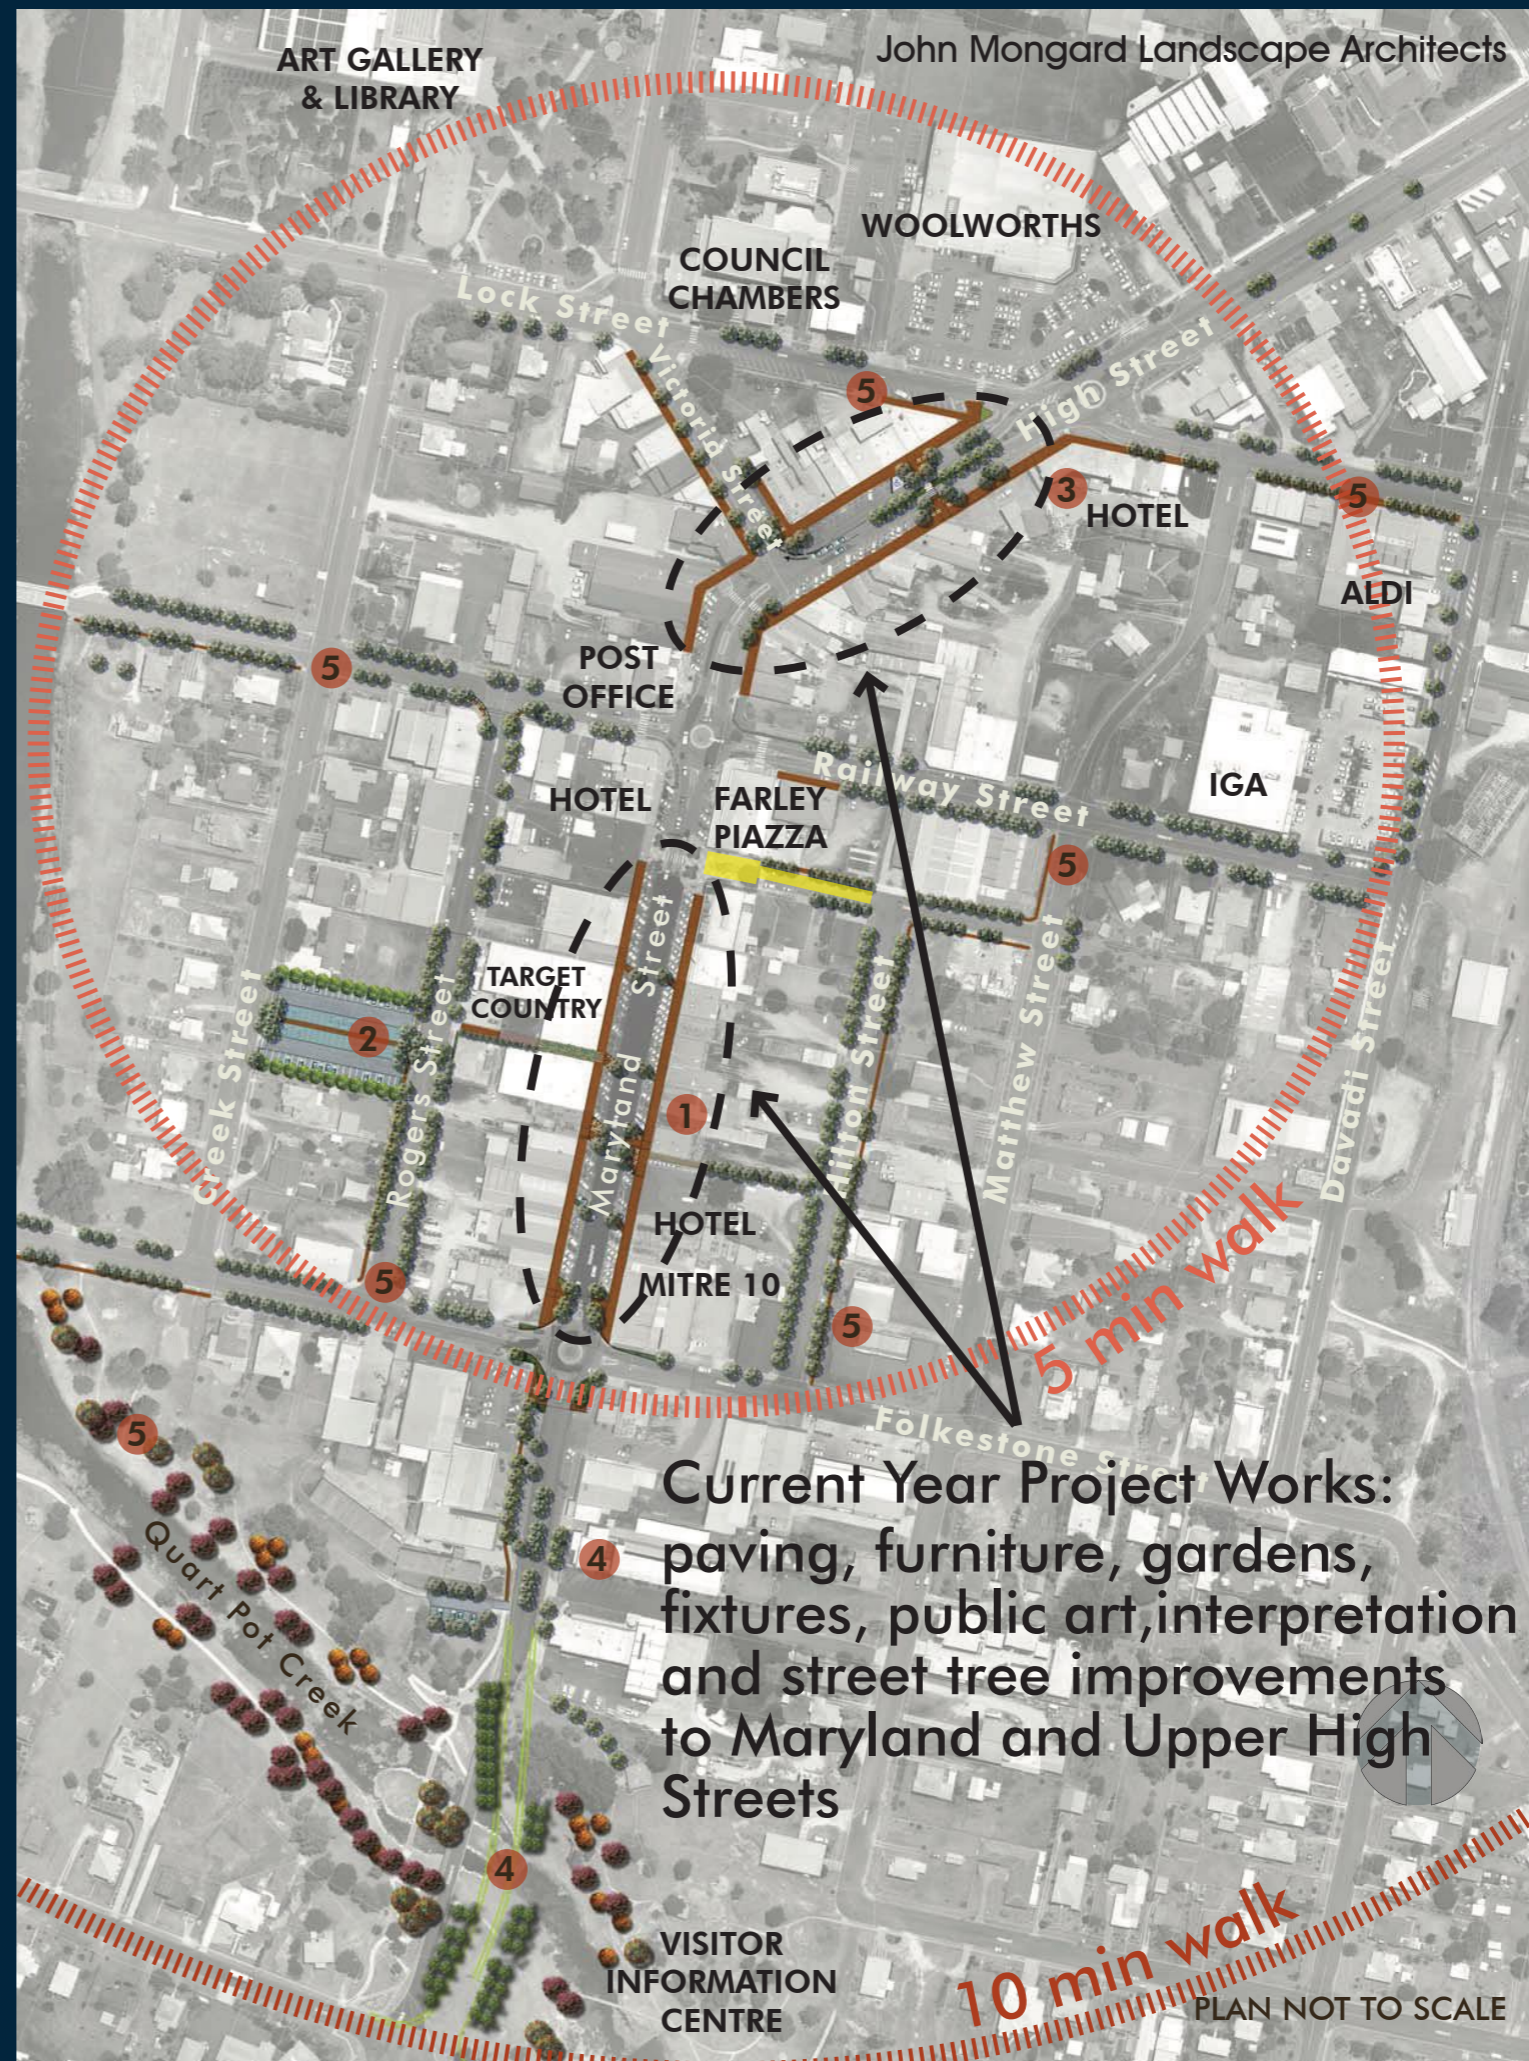

Weekend Temporal Farmers Market

Holding Together the Heart of Stanthorpe is the key theme of the Stanthorpe Streetscape Plan. The main street is the heart of the community and provides a place to shop, socialise and visit. The town has spread beyond Maryland and High Streets and now needs holding together. The streets are the arteries that connect the heart and need care and attention. People would like streets and footpaths that are green and worth walking along. Stanthorpe is already a great regional experience, and now needs to **put the destination into the heart**, not just the district.

Current Year Project Works

Stanthorpe

Current Year Project Works:
paving, furniture, gardens, fixtures, public art, interpretation and street tree improvements to Maryland and Upper High Streets

5 min walk
10 min walk

PLAN NOT TO SCALE
